

UDAY RANA

Student

Versatile and proactive Front-End Developer boasting a rich portfolio with over a year of hands-on experience crafting robust real-world projects, dynamic websites, and engaging applications. I bring creativity and precision to every line of code. Seasoned in adapting to fast-paced and collaborative environments, my expertise extends beyond technical skills to include adept project management methodologies, particularly in Scrum and Agile frameworks. I am driven by a passion for innovation and excellence, consistently delivering impactful solutions in the ever-evolving landscape of front-end development.

PERSONAL PROJECTS

Amacart application

- It's a simple ecommerce application as is the real world with some great features
- In this project i have used MERN stack
- Having a beautiful UserInterface

Water Reminder application

- It's a Console application build in python
- It's main concept is to give the reminders for the water intake based on users goal
- With built in libraries made it more user friendly

Personal-Portfolio

- It's my own portfolio website build on MERN stack
- It showcases all my works that i have done
- Have some good use of Restfull API's basically whole CRUD application
- With additional feature of Admin dashboard
